Dear Greg

I am writing from St Wilfrid's Hospice, a charity based in Bosham, Chichester. We are seeking your support to enable us to continue providing outstanding care to people with life limiting illnesses, ensuring they are able to live well and die comfortably with peace and dignity. I am writing to ask if you will consider awarding a grant of £300 to contribute towards supporting our specialist Hospice Community Team.

St Wilfrid's Hospice is an unwavering source of support for many people across our region, providing patients and their families with access to the care and support they need. The impact of giving someone the death they want, or managing their pain to allow them to live as freely as possible until they die, cannot be understated.

Thinking about death is difficult, but when you imagine yourself or your loved one being in the same position, and what it means to have your final wishes recognised, the importance of what we can provide is undeniable. There are no second chances and your support can make all the difference.

We appreciate all of the support we receive as it enables us to make a real difference to local lives, for this reason we are hopeful that you will consider supporting us this year. Please find attached an application document detailing more information about the hospice, the growing demand for our services and the difference your donation can make.

Our annual review 2023-24 <https://stwh.co.uk/annual-review/>

Please get in touch if you require any further information
Kind Regards

Christine
