To: Subject: Increase to subvention for the Cocking Column w.e.f January 2027

This is to formally advise the CVH Committee and the Parish Council that the cost of supporting the Cocking Column is increasing from January 2027 to £250 per year. As you are aware the cost of producing and managing the Column is shared between CVH, The Parish Council and The Friends, while the Church provides the printing and distribution.

This increase is to reflect the increased cost of producing a larger magazine (with colour pictures) Also, to reduce admin and enable easier budgeting, one annual invoice will be issued in January to cover the entire year.

I hope you agree the Column is still very good value for money, and provides an important communication service to our village.
